58 Stat. 1554; Executive Agreement Series 443

The American Ambassador to the Acting Minister of Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA
Mexico, D.F., April 17, 1942

No. 138

EXCELLENCY:

I have the honor to refer to previous correspondence regarding the assignment to Mexico of Mr. Milton J. Lindner, of the United States Fish and Wildlife Service of the United States Department of the Interior.

My Government, it being understood that the preliminary work has now been completed, has directed me to suggest to Your Excellency the development of subsequent operations through a proposed memorandum agreement. Under this agreement, the cooperative study would be continued with a view to the formulation, through biological and statistical research, of a plan for the administration, regulation, and scientific management of the shrimp and other marine fisheries of Mexican waters which would serve to increase the fisheries food supply and protect it against depletion, to increase efficiency of fisheries operations and to improve the livelihood of those engaged in the fishing enterprise. I have the honor to submit to Your Excellency a proposed memorandum agreement covering the suggested organization of the cooperative work to be undertaken in accordance with this project.
