### AGREEMENT

The Governments of the Republics of Peru and of the United States of America resolve by the present agreement to carry out the stipulations which are established hereinafter for the execution of a program of aerial and topographic cartography of the territory of Peru, by means of aerial photography and geodetic and topographic surveys.

1st—The Governments of Peru and of the United States of America, by the designation of qualified administrative and technical personnel, will jointly undertake a program of work to obtain aeronautical charts and topographic maps, for the purpose of standardizing and coordinating the methods and systems which were used in former operations with the methods and systems of other countries, and to furnish their respective Governments with aeronautical charts and topographic maps of the territory of Peru which may be obtained by the use of these means.

2nd—The Government of the United States of America by the present agreement undertakes:

a). To execute, as soon as it may be possible and in accord with the regulations governing aerial photographic operations in Peru, the trimetrogon and vertical photography required by this program.

b). To furnish the expert personnel necessary to analyze the existing geodetic surveys and to prepare definite plans for their integration, and to determine the density and location of the additional ground control necessary for an accurate compilation.

c). To furnish, in case the Government of Peru does not have the specialized means for obtaining the ground control indispensable for an exact compilation, and in accordance with the existing laws of the United States and the availability of funds, additional personnel, materials and equipment, to aid in establishing geodetic bases, control towers, and ground references, and for carrying out the geodetic work and other technical work which must be done on the ground.
